# FEATURES & BENEFITS

SEAR STATION	The Sear Station is designed to create an intense heat zone to quickly add sear marks to your meat. The high heat from this extra burner also decreases preheat time.
SIDE BURNER	Use the side burner to create an outdoor kitchen at your braai. Simmer sauces or sauté veggies while the main course braais under the lid.
iGRILL 3 COMPATIBLE	The iGrill 3 app-connected thermometer monitors food from beginning to end, displaying the real-time temperature on your mobile device. (Accessory sold separately.)
PORCELAIN ENAMELLED LID	Porcelain-enameled lid retains heat, and the high quality material protects your grill from the elements.
PORCELAIN-ENAMELED, CAST-IRON GOURMET BBQ SYSTEM COOKING GRATES	Remove the circular grate insert and replace it with a griddle, pizza stone or any of the many Gourmet BBQ System inserts to choose from.
TUCK-AWAY WARMING RACK	Keeps food warm, or toasts buns, while the main course finishes grilling on the grate. Fold it down when not in use for easy storage.
SIDE MOUNTED GAS TANK	Mounting the gas tank to the outside of the braai makes it easier to access and remove
SIDE TABLES WITH INTEGRATED TOOL HOOKS	Use the side tables to keep platters, seasonings, and tools within arm's reach. Hang your essential grilling tools on the hooks for easy access
GRILL CABINET	The grill cabinet adds enclosed storage space for all of your essential grilling tools and accessories.
