ALL SIZES IN MILLIMETRES

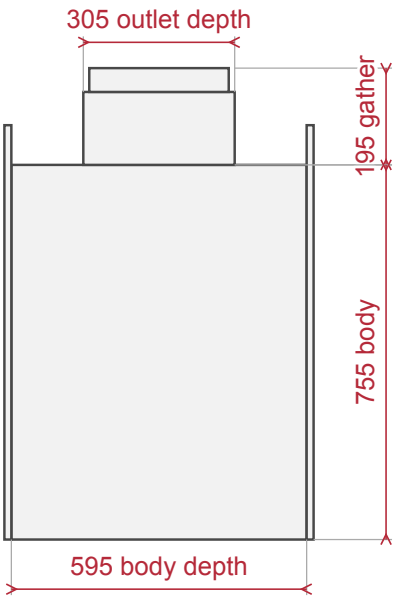

Homefires 800 Double Sided Built-in Fireplace

Built-in fireplace: open on both faces, in black mild steel, for wood or anthracite

01 FRONT VIEW, BOTH FACES

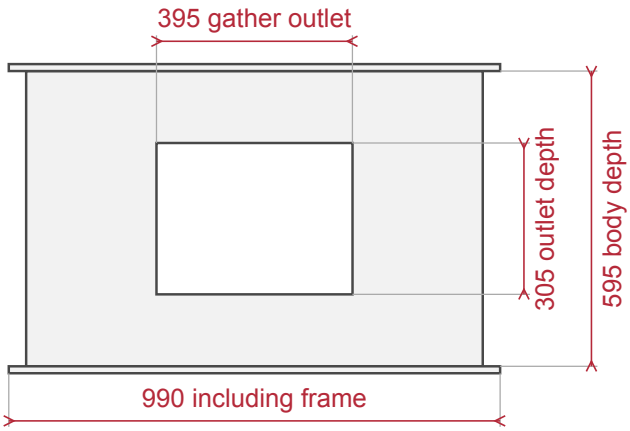

02 SIDE VIEW

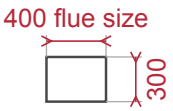

A fire face at the left and at the right.

03 TOP VIEW

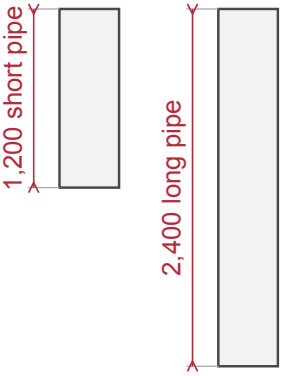

A fire face at the top and at the bottom. White: the gather outlet.

04 FLUE PIPES, SOLD SEPARATELY (SMALLER SCALE)

The flue pipe from above. Flue pipes, collars and the rotating cowl are options.

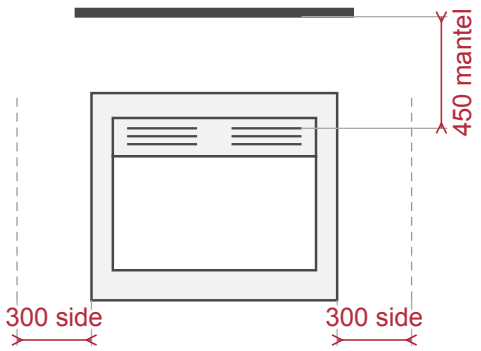

BRAAI CULTURE

ALL SIZES IN MILLIMETRES

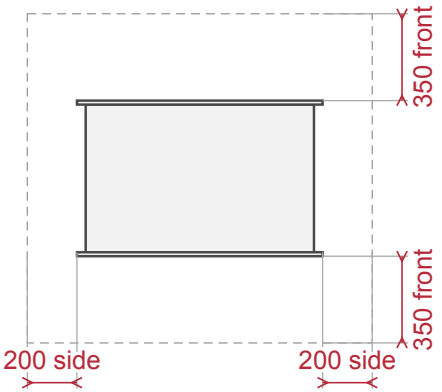

Homefires 800 Double Sided Built-in Fireplace

05 CLEARANCES FROM THE FRONT (SMALLER SCALE)

Keep a heat-sensitive mantel or shelf at least 450 above the hot-air outlet. Keep other heat-sensitive material at the sides at least 300 away.

06 HEARTH FROM ABOVE (SMALLER SCALE)

Dashed: the edge of the hearth.
The hearth extends at each fire face and at the sides.

PLANNING NOTES

These are product sizes, not a building-opening size. Ask us for the opening size before you build.
Plan the wall, the hearth and the clearances for both faces with your installer.
Leave a 20 mm expansion gap at the sides and back of the body.
The minimum chimney height is 3.6 m. Keep the metal flue at least 200 mm from wood trusses.
Included: a fire grate, a grid, an ash drawer, a built-in damper and a natural convection system.
Also included: insulation material, touch-up paint and a guarantee certificate.
The heating volume is 180 m³.
