Front at the right.

PLANNING NOTES

650 is the grate width: a product size, not a fireplace-opening size. The 700 is the model name.
Ask us for the depth and the height before you build: we confirm them with Jetmaster.
This grate is suitable only for Jetmaster Universal fireplace bodies.
This version uses LPG. Gas consumption: 0.33 kg/hr on low, 0.55 kg/hr on high.
Coals and vermiculite are included: 40 ceramic coals.
