Jetmaster Pro Universal 700 Double-sided with Log Pan

05 GAS GRATE (OPTION)

PLANNING NOTES

Comes with a log pan. Ask us for the log pan size before you plan around it.
For the width including the frame, add 100 mm.
These are product sizes, not a building-opening size. Ask us for the opening size before you build.
Ask us for the frame height and projection and the flue position: we confirm them with Jetmaster.
In an existing masonry recess, allow 25 mm all round for insulation.
The adaptor, flue, cowls, screens and ceramic blanket are listed as separate accessories.
The gas grate belongs to the gas version. It is not part of this wood fireplace.
