PLANNING NOTES

These are product sizes. Ask us before you build a counter or a base for the oven.
The 840 by 770 by 600 is the oven body. The 600 height does not include the chimney.
The stainless-steel chimney is a separate part, 800 long (nominal length).
The stand and the table are options and are not drawn here. Ask us for their sizes.
A masonry counter in a photo is not part of the oven.
Choose a suitable counter, or ask us about the matching stand.
The oven door is removable.
Utensils come with the oven.
