### PLANNING NOTES

For domestic use only. A registered gas installer must do the installation.
For indoor or outdoor use, with the specified installation and ventilation.
The countertop must be non-combustible. The cabinet needs a fire-retardant lining, crossflow ventilation and access to the drip tray.
Louvred cabinet ventilation: 100 cm² free area per burner.
Included: hinged stainless-steel lid, vent cover, drip tray and dust cover.
Ask us for the vent cover size before you build the cabinet.
The 6 burner hob is a special order.
