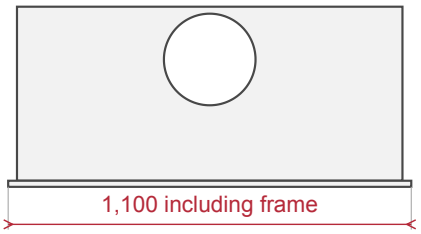
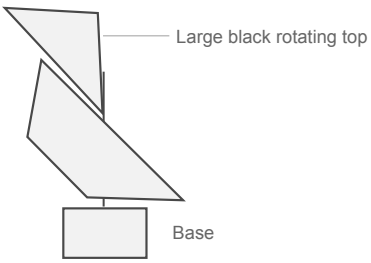
04 TOP VIEW



Front at the bottom. White: the round flue outlet.

05 ROTATING COWL, INCLUDED (SMALLER SCALE)



PLANNING NOTES

These are product sizes, not a building-opening size. Ask us for the opening size before you build.
The body is 1,052 wide, 475 deep and 708 high, and the gather adds 308.
The firebox and the gather are mild steel. The door slides in and under, has a handle bar and opens as a prep table.
Included: a nickel-plated grid, a charcoal tray, a charcoal starter, a swivel arm with a potjie hook, a light fitting and the large rotating cowl, with its top and its base.
The flue pipe is a separate order. It takes a 250 round flue.
