03 TOP VIEW

Back at the top. Front at the bottom.

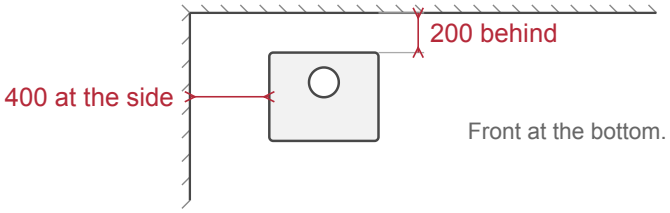

04 REAR CONNECTION

BRAAI CULTURE

Dovre 425 GM

05 CLEARANCES TO COMBUSTIBLE MATERIALS, TOP VIEW (SMALLER SCALE)

PLANNING NOTES

These are the stove's own sizes, not a hearth size.
Have your installer confirm the hearth, the flue and the clearances.
The legs adjust. The rear flue centre moves with them, so settle the leg height before the flue is planned.
The Ø150 flue connects on top or at the rear.
Ask us to confirm the exact spigot size and any adaptor before you order flue parts.
It burns wood, coal or lignite briquettes, and wood logs of 400 fit the firebox.
A connection collar with brackets, an ash-pan tool and a small ash shovel come with the stove.
Chimney flue pipes, accessories and installation are not included.
Send us a photo, your room measurements and roof details for a product and flue quote.
