PLANNING NOTES

These are the stove's own sizes on its legs, not a hearth or room size.
Have an independent installer confirm the hearth, the flue route and the clearances.
The Ø150 flue connects at the top or the rear.
Load logs up to 450 long through the glass front door or the side door.
The stove weighs 140 kg.
The floor radiation zone is 800.
The side radiation zone is 800.
Keep 100 to non-combustible materials.
Chimney flue pipes, accessories, installation and delivery are not included.
Send us a photo, your room measurements and roof details for a product and flue quote.
