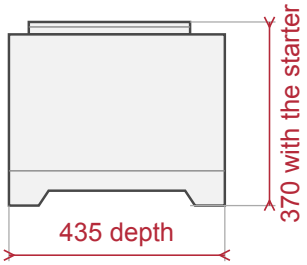
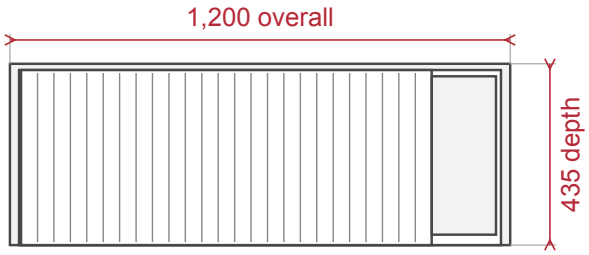
02 SIDE VIEW



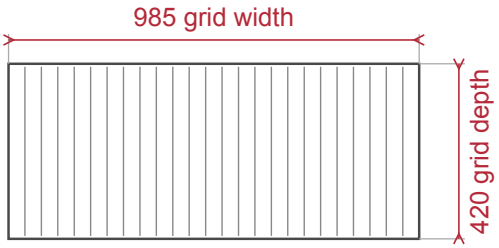
Front at the right.

03 TOP VIEW (SMALLER SCALE)



Front at the bottom. Starter at the right.

04 COOKING GRID (SMALLER SCALE)



PLANNING NOTES

These are product dimensions. They are not a recess or cut-out size.
The 990 cooking section and the 1,156 lower internal width are different parts of the unit, not grid sizes.
Allow for the starter above the body and for safe working space above the braai.
Included: the cooking grid, a removable coal tray and the charcoal starter.
Empty the coal tray only when the coals and ash are cold.
A counter, stand, masonry surround, hood and flue are not included.
Use it on a stable, non-combustible support in a well-ventilated outdoor area. Keep combustible materials clear.
Mild steel has a black painted finish. The 430 and 304 options have a stainless-steel finish.
