04 COOKING GRID

All grid sections together.

PLANNING NOTES

These are product sizes, not a cut-out size. Ask us for the opening size before you build.
Have a registered gas installer check the unit, the support and the ventilation before you build.
Follow the instruction manual of the grill. Keep the controls and the drip tray within easy reach.
This deep model is for countertop use: rest it on a supported, non-combustible surface in a well-ventilated area.
The body, the burners and the deflector plates are 304 stainless steel.
Included: an igniter, a removable drip tray, a regulator, copper pipe, an orange hose and a manual.
It runs on LPG from a gas cylinder, which is sold separately. No lid, dome, stand or cabinet is included.
