PLANNING NOTES

These are product sizes. The recess for the grill must be at least 935 wide.
Before you build, have the full opening, the support and the air flow checked against the Sizzler instructions.
Have a registered gas installer fit it.
The surround must be non-flammable and heat-resistant.
Line a cabinet recess with fire-retardant material, such as ceramic blanket or vermiculite board.
Use it outdoors, or on a patio with at least one open side.
The flat dust cover is loose and comes off. A cooking dome and a rotisserie are separate.
