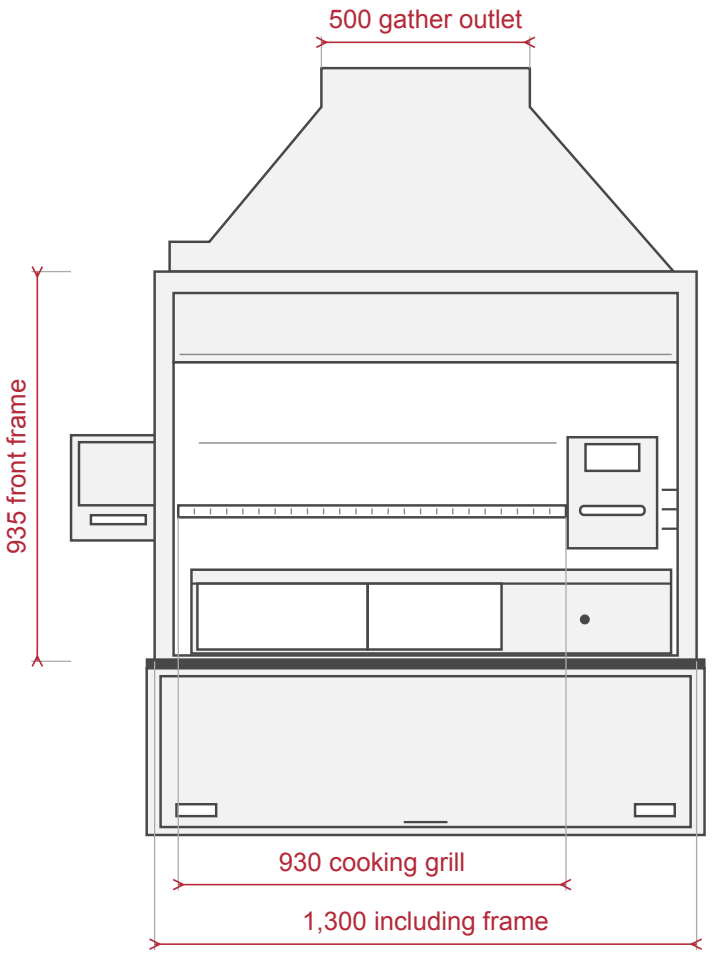
ALL SIZES IN MILLIMETRES

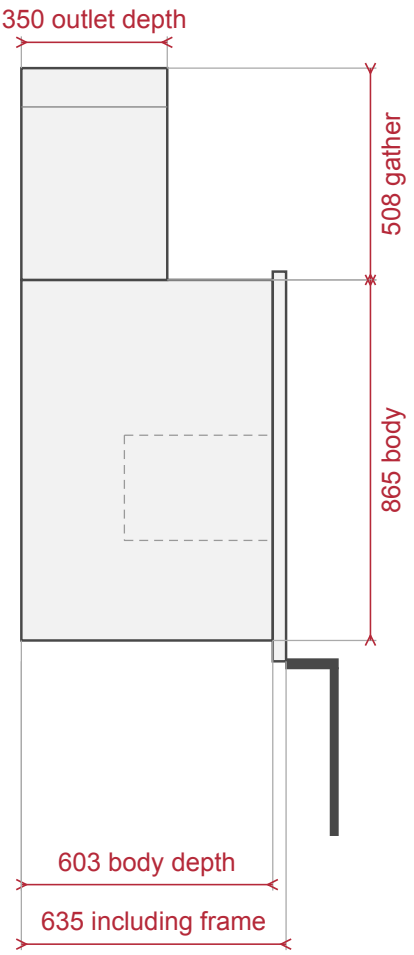
Jetmaster 1200 Super Deluxe Built-in Braai

Built-in braai: mild steel, with a spit motor box, a charcoal starter and a warming drawer

01 FRONT VIEW



02 SIDE VIEW

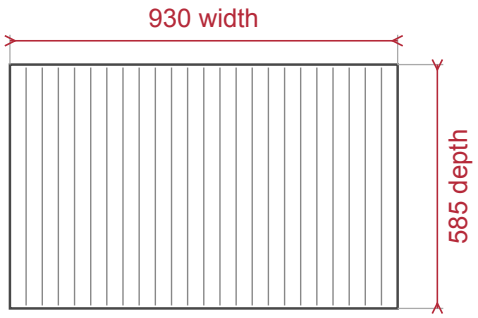


Front at the right. Door folded down.
The body height does not include the gather.
Dashed: the spit motor box.

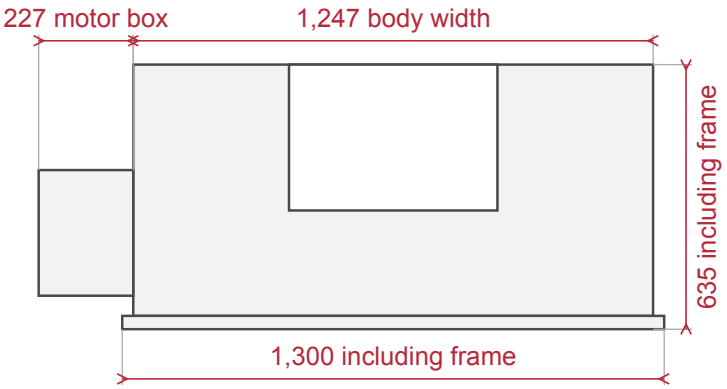
ALL SIZES IN MILLIMETRES

Jetmaster 1200 Super Deluxe Built-in Braai

03 COOKING GRILL

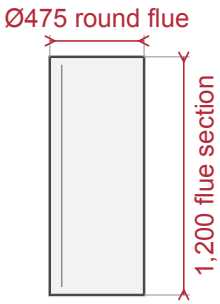


04 TOP VIEW



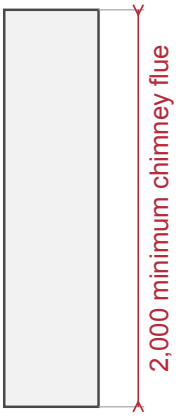
Front at the bottom. White: the gather outlet.

05 FLUE SECTION (SMALLER SCALE)



The flue is sold separately. The gather outlet is rectangular: 500 by 350. The round flue fits with the 350 × 500 adaptor. We will confirm the right parts for your setup.

06 CHIMNEY FLUE (SMALLER SCALE)



Your installer plans the flue route and the final height for your building and roof.

PLANNING NOTES

These are product sizes, not a building-opening size. Ask us for the opening size before you build.
The body is 1,247 wide, 603 deep and 865 high. The gather adds 508 above it.
The spit motor box stands out 227 beside the body. Plan the opening for both.
Have your installer check the actual unit and safe clearances.
Book a qualified electrician for the 220 V spit motor and the light.
Included: a charcoal tray with a warming drawer and an ash disposal pan, and an adjustable charcoal starter.
Also included: a swivel arm with a potjie hook, a light fitting, chicken and sheep spits and the motor.
The grill is nickel-plated. Other grill configurations are available, so ask us before you order.
