Homefires 800 Super Deluxe Built-in GAS Braai

05 GAS COOKING SURFACE

Front at the bottom. Two grid panels.

06 CLEARANCES (SMALLER SCALE)

No combustible material inside the dashed line.

PLANNING NOTES

These are product sizes, not a building-opening size. Ask us for the opening size before you build.
Leave a 20 mm expansion gap at the sides and back.
The minimum chimney height is 2,500 mm.
The lower door opens 455 in front of the body: keep this space clear.
The body is 3 mm mild steel.
Included: top and bottom doors, a light fitting, insulation material and touch-up paint.
The gas griller needs a registered gas installer and a completion certificate.
The flue pipe (420 x 220), the collar and the cowl are options and are sold separately.
Ask us to confirm the outlet size before you order flue parts.
