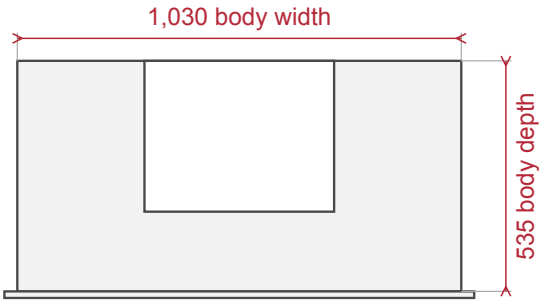
Front at the bottom.

04 TOP VIEW



Front at the bottom. White: the flue outlet.

PLANNING NOTES

These are product sizes, not a building-opening size. Ask us for the opening size before you build.
The body is 1,030 × 535 × 855 mm, with a separate 1,090 × 880 mm front frame.
Plan the 320 mm gather rise and the exact flue route as well.
The open bottom door reaches 455 mm in front of the body.
Confirm the actual unit, the opening, the insulation and safe clearances before you build.
Included: the braai with a cooking grid and grid lifters, an ember maker, a potjie hook and a light fitting.
Also included: an ash pan and an ash drawer, top and bottom doors, a poker, insulation and touch-up paint.
This is the 1000 Deluxe base unit. The flue is not included.
