04 COOKING GRID

All grid sections together.

PLANNING NOTES

These are product sizes, not a cut-out size. Ask us for the opening size before you build.
Have a registered gas installer check the unit, the support and the ventilation before you build.
Follow the instruction manual of the grill. Keep the controls and the drip tray within easy reach.
This shallow model is the insert version: set it into a supported, non-combustible opening.
Included: an igniter, a drip tray, a regulator, copper pipe, an orange hose and a manual.
It runs on LPG from a gas cylinder, which is sold separately. No lid or stand is included.
