PLANNING NOTES

With the lid open, the braai is 660 wide, 640 high and 560 deep.
Allow room to open the lid and reach the controls.
Use it outdoors on a stable, heat-resistant surface.
Keep ventilation and clear access around it. Do not enclose it in cabinetry.
No stand or side tables are included with this Q1100N.
This is the South African LPG model. Confirm the correct gas supply before use.
Ask us to confirm the sizes before you plan a tight space.
