05 SPACE AROUND THE BRAAI (PLAN, SMALLER SCALE)

Front

Keep anything that can burn at least 610 away,
on every side and behind the braai.
Keep it at least 7.5 m from any flammable liquid.
The gas cylinder stands behind the braai,
on the right-hand side.

PLANNING NOTES

These are the outside sizes of the braai.
Plan the space with the lid open: it needs room above and behind.
