Cast-iron multifuel stove with an arched glass door and twin air controls

01 FRONT VIEW

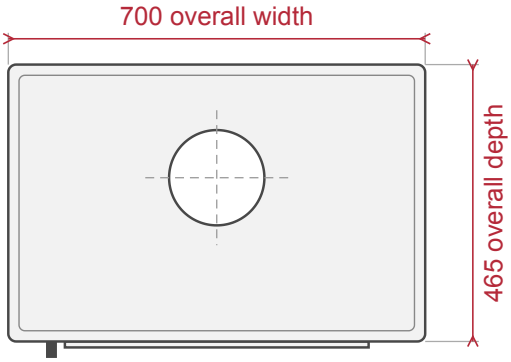

02 SIDE VIEW

Back at the left. Front at the right.
The flue connects on top or at the rear (dashed).

03 TOP VIEW

Back at the top. Front at the bottom.
For a nominal 150 flue pipe.
Appliance pipe adaptor: 146 to 150, with 5 mm rope.

PLANNING NOTES

These are product sizes. Have an independent installer confirm the hearth, the flue route and the clearances.
Ask us for the installation clearances before you plan the position.
Heat output: 12 kW nominal, 14 kW maximum.
The stove weighs 168 kg, so have your installer check that the floor and the hearth can carry it.
An ash pan and a riddling grate are included.
Send us a photo and measurements for a flue quote.
