PLANNING NOTES

These are product sizes, not a building-opening size. Ask us for the opening size before you build it in.
Keep combustible materials outside the dashed lines. Use it on a level, stable, non-flammable surface.
The 900 width does not include the gas connection. These sizes are approximate.
Ask us for the height with the lid standing up before you plan the space above and behind it.
Your installer supplies the gas pipes and fittings. The regulator with hose is not included.
