Al Fresco Fire Pit with Braai Grid

Tiled fire pit for wood or charcoal, with a height-adjustable round braai grid

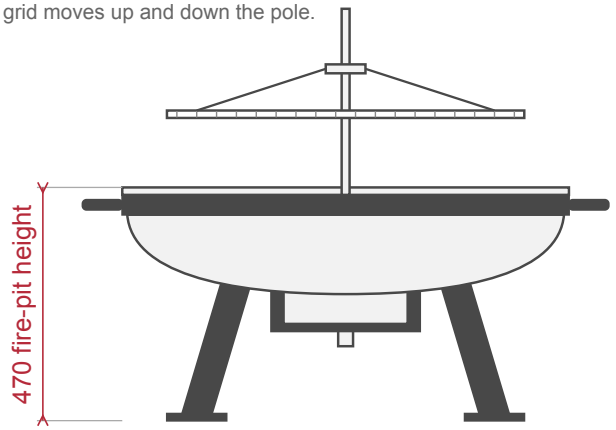

01 TOP VIEW

Dashed: the braai grid. Dark: the handles.

02 SIDE VIEW

The grid moves up and down the pole.

Seen from the front. The grid stands above the 470 height.

PLANNING NOTES

These are product sizes, not clearances. Allow extra space for the handles, the grid, heat and sparks.
Use a stable, level surface that cannot burn, in an open outdoor space: not on a timber deck or on grass.
The pit weighs 75 kg. The handles come off. Included: the fire pit, the ashtray and the adjustable grid.
Wheels and a cover are sold separately.
