### PLANNING NOTES

These are product sizes, not a building-opening size. Ask us for the opening size before you build.
It builds into a wall. Have your builder and gas installer plan the opening, the gas supply and the clearances.
It is open and vent free, so there is no flue or chimney to build. Ask us and your gas installer for the room size and ventilation rules before you choose the room.
Included: the gas box and the coal-finish gas grate.
The body is mild steel with a stainless-steel façade at the front.
The gas grate comes set up for LPG.
At most 0.64 kg of gas an hour.
If your home runs on natural gas, ask us before you order.
The gas supply, the gas connection, building work and installation are not included.
