04 PLINTH FLOOR PLAN

The dashed line is the casing above.
Front at the bottom.

PLANNING NOTES

These are product sizes. Plan the position with the 650 front width, the 435 depth and the 800 height.
The 700 façade and the 100 plinth make up the 800 height.
Allow the 435 overall depth. The 330 rear-body depth measures a separate part.
This vent-free model has no flue. Its room-air requirements still apply.
Have the room, gas configuration, ventilation and required clear space confirmed for the installation.
Confirm the ventilation, gas type and location with the appliance instructions and your gas installer.
Included: the Maluti 650 freestanding mild-steel firebox and the gas grate for the selected configuration.
Guarantee: 15 years on the firebox, 2 years on the gas grate.
