PLANNING NOTES

These are product sizes, not a building-opening size. Ask us for the opening size before you build.
Leave a 20 mm expansion gap at the sides and back.
The minimum chimney height is 2,500 mm.
The lower door opens 510 in front of the body: keep this space clear.
Ask us for the depth of the gather outlet before you order flue parts.
The body is 3 mm mild steel with a black finish. The gas griller is stainless steel.
Included: separate top and bottom doors, a light fitting, insulation material and touch-up paint.
The table braai has a height-adjustable grid, a removable ash drawer and a potjie hook.
The flue pipes, the collars and the cowls are separate items.
