Homefires C0700 Insert with Trim Plate

Built-in wood and anthracite fireplace: closed combustion, with a glass door

01 FRONT VIEW

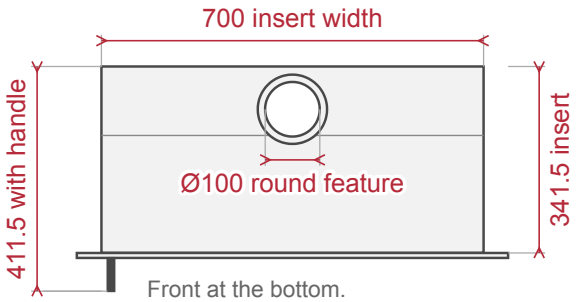

02 SIDE VIEW

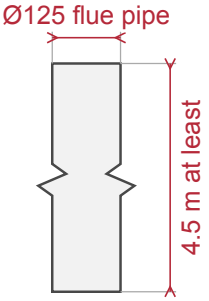

Front at the right.

03 TOP VIEW

Front at the bottom.

04 FLUE PIPE (SHORTENED)

The height runs from the top of the outlet to the top of the chimney. Your installer confirms it for your roof and building.

PLANNING NOTES

These are product sizes, not a building-opening size. Ask us for the installation details before you build.
The C0700 needs its own suitable flue with a Ø125 flue pipe. It is not suitable for a shared flue system.
It has no outside-air connection. Your installer plans the flue and the installation with the manual.
Flue pipes and accessories are sold separately. We do not install: have your installer check the unit and clearances.
