Steel finger

PLANNING NOTES

These are product sizes, not a fireplace-opening size. Check your fireplace opening before you order.
Vent free: this is a flueless gas grate. The existing fireplace chimney is to be closed off.
Room volume: 107 m³ minimum, 438 m³ maximum. Maximum gas consumption: 0.79 kg/hr.
Powder coated steel. An access door gives you the control knob.
The maker offers this grate for LPG and for natural gas. Ask us which version you need.
