Jetmaster Pro Universal 1200 with Basket Grate and Pan

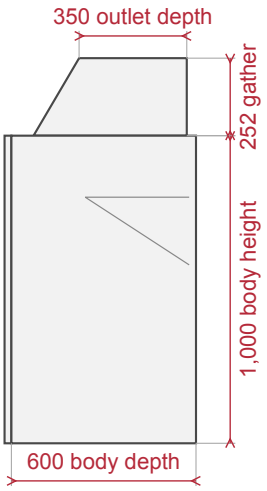

Built-in open wood fireplace, single sided, in mild steel with damper control

01 FRONT VIEW

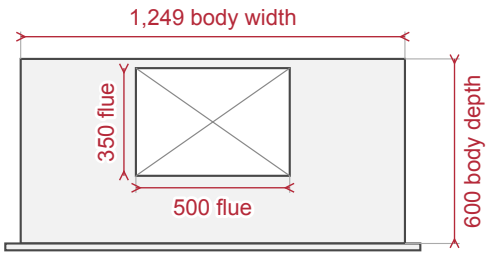

The front frame makes the face wider than the body.

02 SIDE VIEW

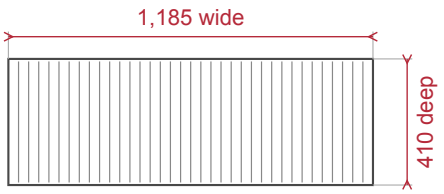

Front at the left.

03 TOP VIEW

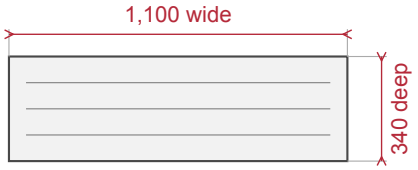

Front at the bottom. Rectangular flue outlet on top of the gather.

04 WOOD GRATE, FROM ABOVE

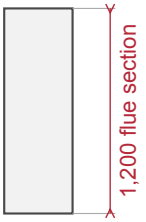

The pan comes with the grate.

05 GAS GRATE, ANOTHER VERSION

From above. Not part of this bundle: a version with a gas grate.

06 ROUND FLUE SECTION (SMALLER SCALE)

Flue pipes come in sections.
They are options on this page,
sold separately. Send us a photo
and measurements for a flue quote.

PLANNING NOTES

These are product sizes, not a building-opening size. Ask us for the opening size before you build.
The body height does not include the gather above it or the flue. Ask us for the frame size before you build.
A single-sided fireplace, built into the wall.
Included: the fireplace with damper control, and the basket grate and pan.
A log pan, a standard gas grate or a deluxe gas grate is an alternative to the basket grate. Ask us.
Options on this page: the flue adaptor, the flue pipes, the cowl and the insulation blanket.
Building work and installation are not included. Have your installer check the actual unit and the safe clearances.
