BRAAI CULTURE

ALL SIZES IN MILLIMETRES

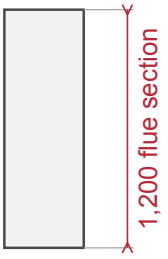

Jetmaster Pro Universal 1500 with Basket Grate and Pan

05 FACE RECESS (SMALLER SCALE)

Front at the right.
In existing masonry, the front of the frame sits at most 150 behind the face of the wall.

06 FLUE SECTION, SOLD SEPARATELY (SMALLER SCALE)

An adaptor joins the rectangular outlet to a round flue.
The adaptor, the flue pipes and the cowl are options on this page.
Minimum chimney height: 3,600 mm.

PLANNING NOTES

These are product sizes, not a building-opening size. Ask us for the opening size before you build.
Ask us for the body depth and the gather height before you build.
A single-sided fireplace, built into the wall.
Included: the fireplace with damper control, and the basket grate and pan.
The 1500 is made on special request.
Send us a photo and measurements for a flue quote. Building work and installation are not included.
Have your installer check the actual unit and the safe clearances.
