Outback Jupiter 4 Burner Hybrid (Black)

Hybrid gas and charcoal braai with a side burner, black

01 FRONT VIEW / LID CLOSED

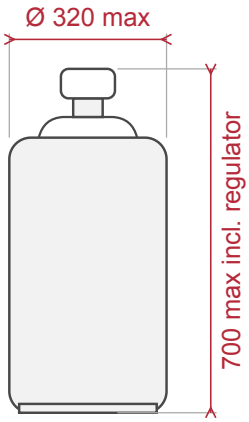

02 COOKING GRID

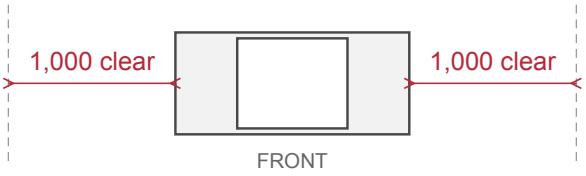

Two grid halves with a round insert.
Shown at the same scale as the front view.

03 GAS CYLINDER LIMITS

04 SPACE AT THE SIDES (TOP VIEW)

Keep this space clear of anything that can burn, such as fences and trees.

PLANNING NOTES

Ask us for the depth and the height before you plan the space: we confirm them with Outback.
Use it outdoors only, on a level surface, and never under a roof or anything that can burn.
The gas cylinder stands next to the braai, never under it. It must fit the cylinder limits above.
Leave room behind the braai for the hood to open.
