BRAAI CULTURE

ALL SIZES IN MILLIMETRES

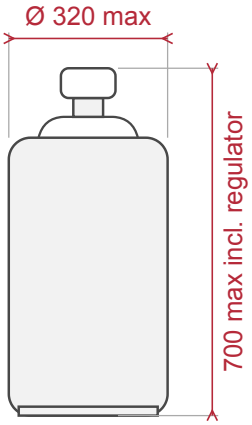

Outback Jupiter 4 Burner Hybrid Stainless Steel

03 COOKING GRID

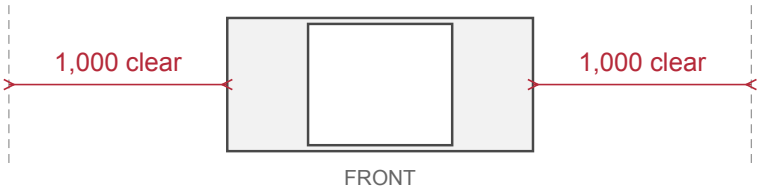

Two grid halves with a round insert.

04 GAS CYLINDER LIMITS

05 SPACE AT THE SIDES (TOP VIEW)

Keep this space clear of anything that can burn, such as fences and trees.

PLANNING NOTES

Use it outdoors only, on a level surface, and never under a roof or anything that can burn.
The gas cylinder stands next to the braai, never under it. It must fit the cylinder limits above.
Leave room behind the braai for the hood to open.
