PLANNING NOTES

These are product sizes. Ask us before you build a counter or a base for the oven.
The 1,090 by 1,030 by 750 is the oven body, without the chimney.
The chimney is a separate part, 800 long (nominal length). Do not add it to the 750 for a full height.
Plan the chimney and a safe working space above it separately.
The mobile stand and the table are separate options and are not drawn here.
The mobile stand is 1,010 by 1,010, and 1,000 high. Ask us for the table size.
The door is removable. The stainless-steel chimney comes with the oven.
Utensils come with the oven.
A thermometer comes with the oven.
