Jetmaster Atlanta Portable Gas Braai, 4 Burner

Gas braai on a trolley cabinet: 4 burners, a side burner and two shelves

01 FRONT VIEW, LID CLOSED

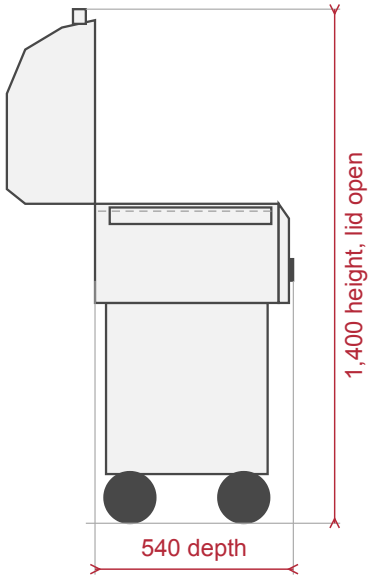

02 SIDE VIEW, LID CLOSED

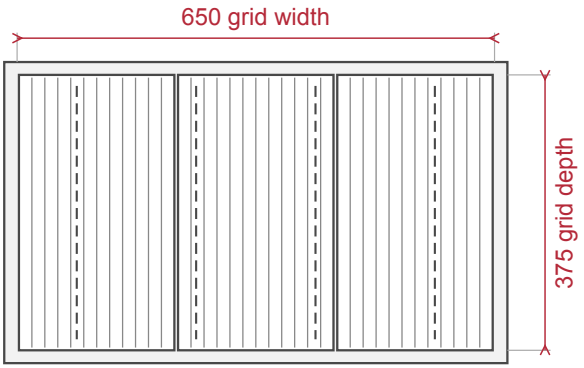

Front at the right. Dashed: the grid.

03 SIDE VIEW, LID OPEN

Front at the right. Leave room behind the lid.

04 COOKING GRID (LARGER SCALE)

Front at the bottom. Three grid pieces.
Dashed: the 4 main burners.

PLANNING NOTES

The cabinet holds a 9 kg gas bottle. The hose, the regulator and the gas bottle are sold separately.
Ask us to confirm the correct LPG hose and regulator before you connect it.
Allow 1,400 of height with the lid open, plus room for the side burner and room to work.
These are product sizes, not safety clearances. The left shelf folds down; the side burner is in the right shelf.
Use it outdoors in open air, on a firm level surface, clear of anything that can burn.
