Jetmaster Phoenix Built-in

Built-in wood or charcoal fireplace: slow combustion, with a glass front and vermiculite inner boards

01 FRONT VIEW

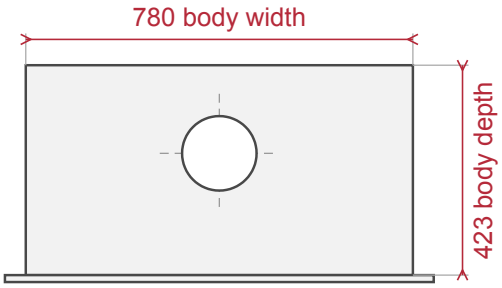

02 SIDE VIEW

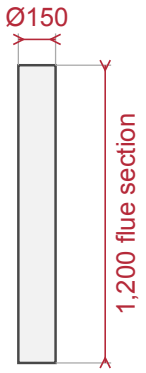

Front at the right. The 423 is without the handle.

03 TOP VIEW

Front at the bottom. Round flue outlet on top.

04 OPTIONAL FLUE (SMALLER SCALE)

One separate flue section, not an installed chimney height.
The flue pipe and the cowl are options, sold separately.

PLANNING NOTES

These are product sizes, not a building-opening size. Ask us for the opening size before you build.
Plan the body, the frame and the flue together. Your installer checks the actual unit and the safe clearances.
A poker and the installation manual come with the fireplace.
Not included: the flue pipe, the cowl, the insulation blanket, the building work and the installation.
