Jetmaster Phoenix Freestanding

Slow combustion fireplace: mild-steel body, glass front, vermiculite inner boards, open log box built in

01 FRONT VIEW

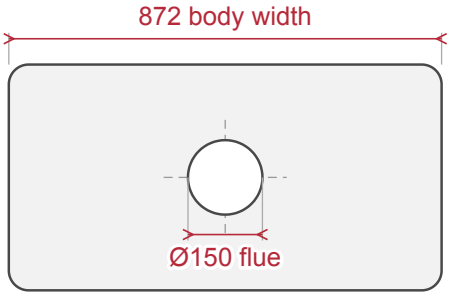

02 SIDE VIEW

Back at the left. Front at the right.
Ask us for the depth before you plan a tight space.

03 TOP VIEW

Back at the top. Front at the bottom. Round flue outlet on top.

04 OPTIONAL FLUE (SMALLER SCALE)

One separate flue section, not an installed chimney height.
Flue pipes and a cowl are sold separately.

PLANNING NOTES

These are product sizes. Your installer checks the actual unit and the safe clearances around it.
Ask us for the installation instructions. Your installer needs them to plan the flue and the clearances.
Vermiculite boards line the firebox.
No grate is needed. The open log box is built into the fireplace.
Listed heat output: 15 kW.
Not included: flue pipes, a cowl, building work and installation. Send us a photo and measurements for a flue quote.
