03 TOP VIEW

Fascia and room at the bottom.

04 GAS GRATE, FRONT AND SIDE

Gas grate with a coal finish, included.
Side view: the grate front at the right.

PLANNING NOTES

These are product sizes, not a building-opening size. Ask us for the opening size and the size of the stainless-steel fascia before you build.
It builds into a wall, with the stainless-steel fascia finishing the front.
It is an open, vent-free firebox, so there is no flue or chimney to build. Ask us for the room size and ventilation rules before you choose the room.
Included: the mild-steel 740 gas box with a stainless-steel fascia and a 550 x 270 gas grate with a coal finish.
The grate comes for LPG or natural gas. Tell us which gas you use before you order.
The gas supply, the pipework, the wall building work and the installation are not included.
