ALL SIZES IN MILLIMETRES

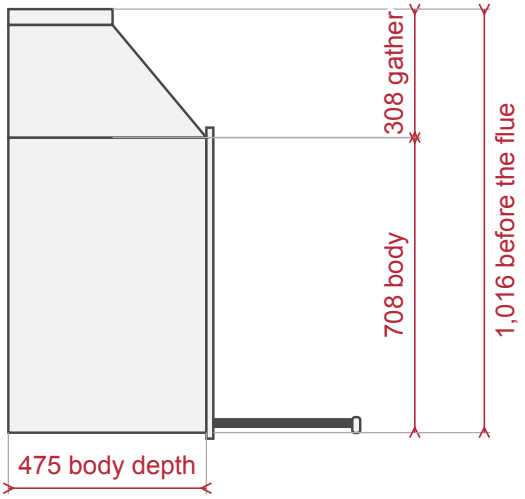

Jetmaster 1000 Entertainer Hybrid

Built-in braai: mild-steel body, 304 stainless-steel frame, fascia and door, with a charcoal starter

01 FRONT VIEW

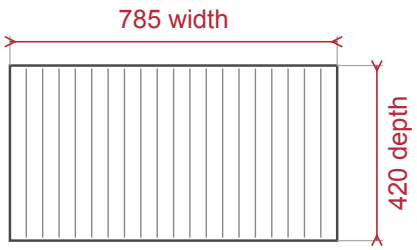

02 SIDE VIEW

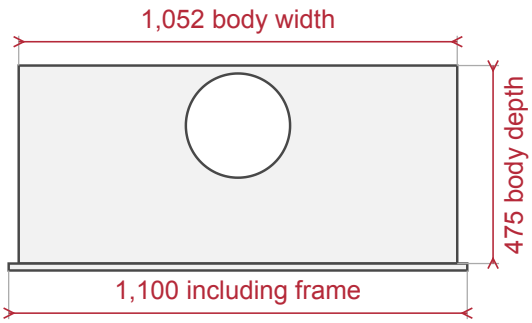

Front at the right. Door open as a prep table.

03 COOKING GRID

Nickel-plated grid.

04 TOP VIEW

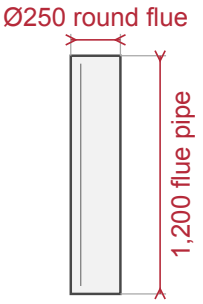

Front at the bottom. White: the round flue outlet.

BRAAI CULTURE

Jetmaster 1000 Entertainer Hybrid

05 FLUE PIPE, SOLD SEPARATELY (SMALLER SCALE)

The optional straight pipes are 1,200 mm long and have formed ends for joining.
The fitted length depends on joint overlap.
Send your measurements for a flue and configuration quote.

PLANNING NOTES

These are product dimensions, not a building opening. Check the actual unit before building the surround.
Plan the body, gather and flue together.
Have your installer check the actual unit, door movement, insulation and safe clearances.
The door opens to form a prep surface and can slide under the unit. Keep its working area clear.
Included: a coal tray, a charcoal starter, a swivel arm with a potjie hook and a light fitting.
The flue, the cowl and the insulation are not included.
