FLAMM 750 on Log Base

Freestanding wood fireplace: closed combustion, one glass door, firebox on a log base

01 FRONT VIEW

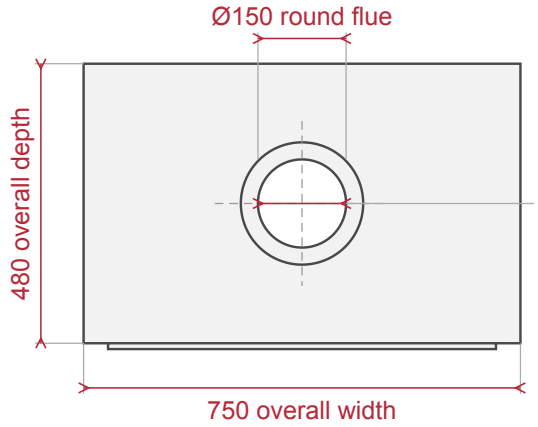

02 SIDE VIEW

Front at the left.

03 TOP VIEW

Back at the top. Front at the bottom.
The top connection takes a nominal Ø150 flue.

PLANNING NOTES

These are the fireplace's own sizes, not a hearth or room size.
The 785 overall height includes the 254.5 log base and the 530.5 firebox.
Confirm the hearth, combustion air, flue and clearances from the instructions for this exact model.
Specify the full flue route for your room.
Included: the FLAMM 750 fireplace with its glass door and the log base.
The firebox has a firebrick lining.
The 750 has its own body and base sizes. Do not use the FLAMM 950 sizes for it.
Register the fireplace within 30 days of purchase for the five-year limited body warranty.
Send us a photo and your room measurements for a flue quote.
