ALL SIZES IN MILLIMETRES

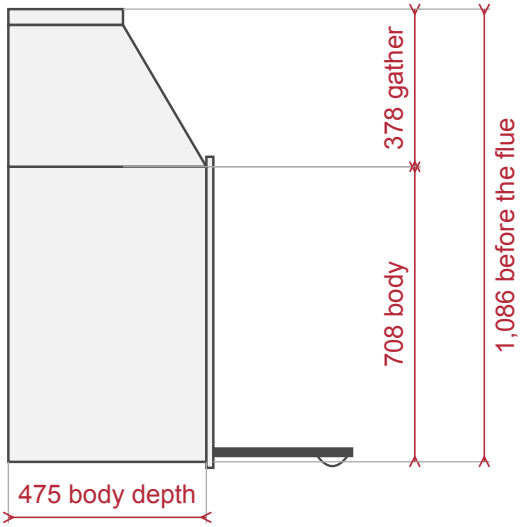

Jetmaster 1200 Entertainer 430

Built-in braai: 430 stainless-steel firebox and gather, with a charcoal starter

01 FRONT VIEW

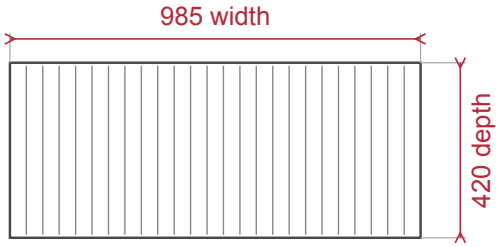

02 SIDE VIEW

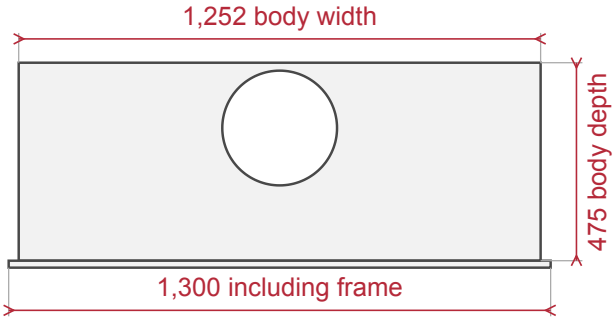

Front at the right. Door open as a prep surface.

03 COOKING GRID

Nickel-plated grid. The charcoal starter sits to its right.

04 TOP VIEW

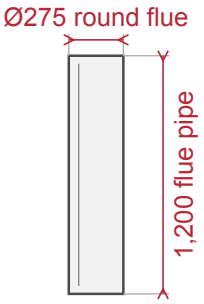

Front at the bottom. White: the round flue outlet.

BRAAI CULTURE

Jetmaster 1200 Entertainer 430

05 FLUE PIPE, SOLD SEPARATELY (SMALLER SCALE)

The optional straight pipes are 1,200 mm long each.
The fitted length depends on joint overlap.
Send your measurements for a flue and configuration quote.

PLANNING NOTES

These are product dimensions, not a building opening. Check the actual unit before building the surround.
Plan the body, gather and flue together.
Have your installer check the actual unit, door movement, insulation and safe clearances.
The door opens to form a prep surface and can slide under the unit. Keep its working area clear.
Included: a nickel-plated cooking grid, a charcoal tray and a charcoal starter.
Also included: a swivel arm with a potjie hook and a light fitting.
The flue pipes, any adapters, the cowl, the insulation blanket and the building materials are not included.
