PLANNING NOTES

These are product sizes, not a building-opening size. Ask us for the opening size before you build.
Leave a 20 mm expansion gap at the sides and back. Cover the sides, back and top with fibreglass insulation.
The minimum chimney height is 2,500 mm.
The lower flap opens 400 in front of the body: keep this space clear.
The body is 3 mm mild steel.
Included: an ember maker, an ash pan, an ash drawer, a warming drawer and a potjie holder.
The flue pipe, the joining collar and the cowl are optional add-ons and are sold separately.
