PLANNING NOTES

These are product sizes, not a building-opening size. Ask us for the opening size before you build.
Leave a 20 mm expansion gap at the sides and back.
The minimum chimney height is 2,500 mm.
The lower door opens 400 in front of the body and is a work surface when open: keep this space clear.
The spit motor, the motor box and the spit arm are included.
The flue, the collar and the cowl are options and are sold separately.
