03 COOKING GRID

Front at the bottom.

04 TOP VIEW

Front at the bottom. White: the flue outlet.

PLANNING NOTES

These are product sizes, not a building-opening size. Ask us for the opening size before you build.
Have your installer confirm the opening and the safe clearances. Allow for the 430 open lower door.
Included: top and bottom doors, an ash pan, a cooking grid, a potjie hook and a light fitting.
The globe for the light fitting is sold separately.
It has a full-width cooking grid. A separate ember maker is not included.
The flue pipe, the joining collar and the cowl are optional extras. The optional flue pipe is 220 × 320.
The flue length and the chimney depend on your installation.
It can be built in indoors or outdoors, with masonry support and a correctly designed chimney.
