01 FRONT VIEW

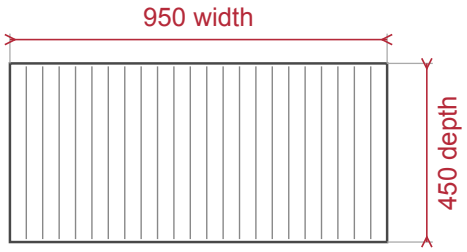

02 SIDE VIEW

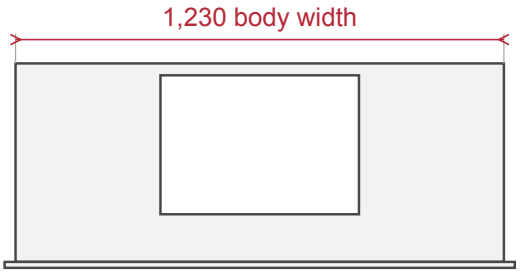

Front at the right. Bottom door open.

03 COOKING GRID

04 TOP VIEW

Front at the bottom. White: the flue outlet.

PLANNING NOTES

These are product sizes, not a building-opening size. Ask us for the opening size before you build.
The body is 500 deep and 780 high, without the gather.
Leave a 20 mm expansion gap at the sides and back.
The chimney must be at least as large as the 500 × 350 flue outlet and at least 2,500 high.
The flue can be offset by up to 45 degrees to clear an obstruction.
The bottom door opens 430 in front of the body: keep this space clear.
Flue pipes, collars and cowls are sold separately.
