ALL SIZES IN MILLIMETRES

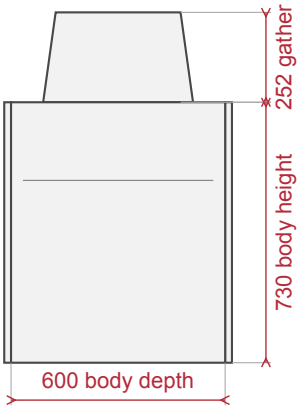

Jetmaster Pro Universal 1050 Double-sided

Built-in open wood fireplace, double sided, in mild steel: basket grate and pan, damper control

01 FRONT VIEW

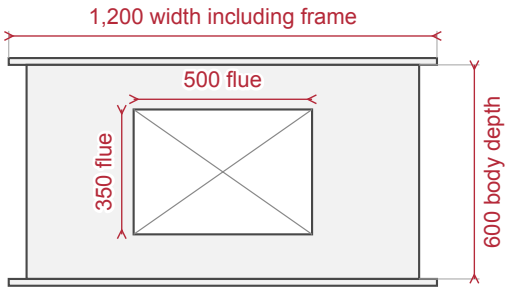

02 SIDE VIEW

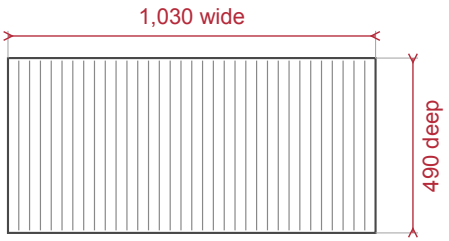

Open on both faces: a frame at each face.

03 TOP VIEW

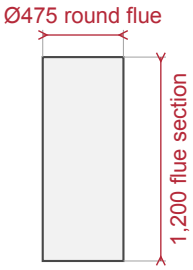

Rectangular flue outlet on top of the gather.

04 WOOD GRATE, FROM ABOVE

The pan comes with the grate.

05 ROUND FLUE SECTION (SMALLER SCALE)

Round flue pipe comes in sections. It is an option on this page, sold separately.
Send us a photo and measurements for a flue quote.

PLANNING NOTES

These are product sizes, not a building-opening size. Ask us for the opening size before you build.
The body height does not include the gather above it or the flue.
The fire shows on both faces. Plan the wall, the flue and the clearances for both faces with an independent installer.
Included: the fireplace with damper control, the basket grate and pan, a poker and the installation manual.
A log pan or a gas grate is an alternative to the basket grate, not an extra in this bundle. Ask us.
Options on this page: the flue adapter, the round flue pipe, the rotating cowl and the insulation blanket.
